ACCESS CONTROL SYSTEM

Gepcom Technologies is responsible for the security of your area with different authorization level of security integrated with CCTV system as well to increase the level of security. We decided to be very selective with the brands we deal with, so as to have the ability to deliver fully reliable solutions to clients. Whatever be the situation, we are always ready to find the proper and solid solutions on how to deal with multisystem functioning as a one system.

SAMSUNG **PELCO** **Honeywell** **BOSCH** 

STRUCTURED CABLING SYSTEMS

When building the systems of CCTV, Access Control and Telephone among others, there is, a need to have solid and proper network infrastructure to run on the top of it. We are specialized in designing and implementing solid structured cabling such as: CAT6, CAT6A, and CAT7. Of course, we did not forget the vertical communication, which is why we also became experts in Copper and fiber working together to achieve connectivity.

It has covered several fields such: Hotels, Hospitals, Schools, among others. We implemented different types of projects applying the FTTH solutions as per high standards and regulations from Etisalat & Du

NORDEN® **R&M** **3M** **TECHLOGIKS**

TELEPHONE SYSTEMS

Communication nowadays form a vital part of our lives, be it personal or business wise, and same is divided into two types: Analog & IP System. Gepcom Technologies is specialized in providing and supporting telephone system integrated with hotel management system, POS system and call center system. We are expert in customizing PABX system using open source platform to increase the features of PABX system as per the clients' needs.

SHARP®

UPS SYSTEMS

Masx Gepcom technologies offer Power, Cooling & Monitoring Solution for Data center in UAE. As part of Data center solution we offer UPS systems. Our Solution includes three phase UPS, Single phase UPS with all modern feature suitable for Data center, industrial, Telecom and Medical applications .

GATE BARRIERS

Lately, it has become a measure to securing residential parkings as well as Malls entry and exit, by using the Gate Barrier System. We have successful track record for several kinds of projects implementing this system in several Residential and Commercial Buildings with long range access control

QUEUE MANAGEMENT SYSTEM

Gepcom Technologies queue management system solutions are based on the principle of measuring and valuing waiting time to enhance customer experience at all levels. Excessive queuing and waiting are among the leading causes of consumer dissatisfaction in banks, retail stores, hospitals and government institutions & Wavetec's virtual queuing systems solve that problem.

Our Q-Management Systems are much flexible to be integrated with different systems such as ERP, CRM & SMS notification gateways through standard APIs.

SMATY SYSTEMS

Satellite system is mandatory nowadays in buildings, this is where Gepcom Technologies' expertise to implement this system comes into picture so as to have the ability to watch TV channels using Arabsat, Nilesat and Hotbirds among others. We can provide this kind of system not only in easy manner, but also for complex need by making use of IF, RF and also IPTV System for hotels, hospitals and others.

We have partnered with reputed brands, such as, Alcad, Triax, Wisi & Grundig, to be able to serve our customers better.

SOFTWARE SOLUTIONS

Softwares are applied in day to day running businesses and help in providing solutions to daily problems. We, at Gepcom Technologies, provide tailor made software solutions based on customers' business needs backed up by the most advanced technology, aiming at exceeding customer's expectations. We create and deploy unique solutions that reduce cost, mitigate risk and improve service delivery throughout IT lifecycle.

Our comprehensive solutions help you solve today's challenges, while focusing on your core business, by providing insight and control across cloud, as well as mainframe environments.
